NENNII CALLY-NTETE

38 Weston Green SW | Calgary, AB T3H 5E9 | 403-619-8097 | nenniikris@gmail.com

OBJECTIVE

As a Junior Developer in the Computer Science and the Cybersecurity field, I possess a strong passion for developing real-world applications and securing them with industry standards. Alongside my never-ending passion for the field comes my excitement to learn as I am constantly seeking to learn new things from the World Wide Web as well as the people I would work with.

EDUCATION

Diploma (In-Progress)   April 2023
Southern Alberta Institute of Technology
- *Major: Information and Technology Security*

ZTM Academy (Extra-Curricular)
- *Web Development*
- *Web Application Security*

B.Sc. (Transferred Credits)
University of Lethbridge

- *Major: Computer Science*

SKILLS & ABILITIES

Tech Stack

- HTML
- CSS
- Python
- JavaScript
- C
- C++
- React
- Node.js
- Angular
- MongoDB
- PostgreSQL
- Bash Script
- Git
- AWS
- Pentesting

Communication
- Collaborated with team members to build projects via GitHub.

Leadership
- Team leader at IKEA for the Recovery Department.
- Led a lot of Group Projects in School successfully.
- Led development of certain projects via Trello and GitHub.

EXPERIENCE

Projects
- Face Recognition Project that accepts images and detects faces in them if any. Project was intended to explore the benefits of machine learning API's and technologies.
- E-ID project which is still under development. Project focuses on the development of an application in which users' Official identification information i.e., Drivers Licenses, Passports and PR Cards can be verified and stored securely to be used where needed for example: Police Stops, Airport Authority, Venues where ID card verification is needed to access like Clubs and some Entertainment areas and the likes. In a world which revolves around technology and digital information, our team recognizes that such a solution is necessary and strive to provide it.
